

Water supply profile

About the Area

Southern Mindanao (Region XI) consists of six (4) provinces, namely: Davao del Norte, Davao del Sur, Davao Oriental and Compostela Valley Province. There are five highly urbanized cities in the regions, namely: Davao City, Digos City, Panabo City, Tagum City and Island Garden City of Samal.

Water supply development

There are a total of 114 municipalities falling within LWUA's jurisdiction in Area 8 of which 49 have already formed water districts. The remaining 65 municipalities have yet to establish their own water districts even as some of these places are likely to organize their respective rural waterworks and sanitation associations or RWSAs.

A total of P793,636,113.00 have been availed of by water districts in Area-8 out of the P1,213,713,607.00 in loans committed to the same by LWUA. Total investments in the area amount to P1,261,313,607.00 with 142 water supply improvement projects having been implemented.

There are 239,649 water service connections in Area-8 serving a population of 1,389,964. Water sources in the area are deepwells, shallow wells, springs and dug wells. Non-revenue water (NRW) stands at an average of 25% while collection efficiency of the water districts is at 84.22% average.

The established and highly acknowledged leaders among water districts in Area-8 are the Davao City WD, Kidapawan WD, Tagum WD, Cotabato WD and Sultan Kudarat WD. Water districts in the area all members of the South-Central Mindanao Water Information Council (SOCEMWIC), the most active WD association in Regions XI and XII.
